Importance: High

Thanks Deb. Got your spreadsheet of the EPA PM monitoring. I know you mentioned that both PM2.5 and PM10 were being monitored, but Bob pointed out your spreadsheet has the monitor type column labeled as all PM10 is that right? That table of air quality guidelines for PM in air that I shared with you over the weekend is all based on PM2.5 – that is the data we really need to see to make a health call, if possible.

When I go to the https://projects.cteh.com/users/sign_in website, it asks for a login as well as a password. I tried your EPA email but it didn't work – do you know what the login is?

THANKS Lora

Subject: Ames Warehouse Fire

Hi Lora

The following is the website to access the Wood County consultant's data

Projects.cteh.com
Password: ToolFire2017

Also attached is our draft data from the logbooks
